INFORMATION DISCLOSURE STATEMENT UNDER 37 C.F.R. 1.56, 1.97 AND 1.98

Sir:

Applicants submit herewith patents, publications, and other information of which they are aware, which they believe may be material, as defined in 37 C.F.R. 1.56(b), to the examination of this application and in respect of which there may be a duty to disclose in accordance with 37 C.F.R. 1.56(a). While information referred to in this Information Disclosure Statement may be material pursuant to 37 C.F.R. 1.56(b), the filing of this Information Disclosure Statement is not intended to, pursuant to 37 C.F.R. 1.97(h), constitute an admission that any patent, publication or other information referred to is, or is considered to be, material to the patentability of this invention. Pursuant to 37 C.F.R. 1.97(g), the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information exists.

- ☒ (a) This information Disclosure Statement is filed within the period set forth in §1.97(b) because it accompanies the new patent application submitted herewith, is filed within three months of the filing date of a national application or within three months of the date of entry of the national stage as set forth in §1.491 in an international application. Or is believed to be filed before the mailing date of a first Office Action on the merits, whichever event occurs last. However, in the event that the first office action has been mailed, the Commissioner is authorized to charge any fees under 37 C.F.R. 1.17(p) or credit any overpayment to Account No. 50-0935.

- ☐ This Information Disclosure Statement is filed after the period set forth in 37 C.F.R. 1.97(b), but is believed to be filed before the mailing date of a final action under §1.311, whichever occurs first.

- ☐ (1) The undersigned attorney certifies that each item of information contained in this Information Disclosure Statement was cited in a communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of this statement;

- ☐ (2) The undersigned attorney certifies that no item of information contained in this Information Disclosure Statement was cited in a communication from a foreign patent office in a counterpart foreign application or, to the knowledge of the undersigned attorney after making reasonable inquiry, was known to any individual designated in §1.56 (c) more than three months prior to the filing of this statement; or

- ☐ (3) This Information Disclosure Statement is accompanied by a transmittal letter in which payment of the fee set forth in §1.17(p) and required by 37 C.F.R. 1.97 (c) is authorized.

Patents

1. U.S. Patent No. 3,337,919, issued August 29, 1967, entitled "Container Rim Beading Apparatus", of *Brown*;
2. U.S. Patent No. 4,540,543, issued September 10, 1985, entitled "Injection Blow Molding Process and Apparatus", of *Thomas et al.*;
3. U.S. Patent No. 4,559,197, issued December 17, 1985, entitled "Methods and Apparatus for Flanging Tubular Polymer Articles", of *Dick et al.*;
4. U.S. Patent No. 4,665,682, issued May 19, 1987, entitled "Method for Producing a Hot Fillable, Collapse Resistant Polyester Container Without the Need to Utilize Set Process Techniques and/or Non-Conventional Container Geometries", of *Kerins et al.*;
5. U.S. Patent No. 4,731,011, issued March 18, 1988, entitled "Injection Blow Molding Maching", of *Nakamura et al.*;
6. U.S. Patent No. 4,889,752, issued December 26, 1989, entitled "One Piece Self-Standing Blow Molded Plastic Containers", of *Beck*;
7. U.S. Patent No. 5,698,645, issued December 16, 1997, entitled "Process for Preparing Cycloolefin Copolymers", of *Weller et al.*;
8. U.S. Patent f5,753,275, issued May 19, 1998, entitled "Cavity Plates Aligning and Guiding Apparatus in Disk Injection Molded Dies", of *Takahashi et al.*;
9. U.S. Patent No. 6,164,947, issued December 26, 2000, entitled "Adjustable Curling Screw Mechanism for a Lip Rolling Machine", of *Lamson*;
10. U.S. Patent 6,237,791, issued May 29, 2001, entitled "Wide Mouth Hot Fill Container", of *Beck et al.*; and
11. U.S. Patent No. 6,554,154, issued April 29, 2003, entitled "Thermoformed Container Having Improved Strength to Weight Ratio in Sidewall", of *Chauhan et al.*
